

# Transponder scoring to be used for the 12th Annual Parts Unlimited Spring Classic

The 12<sup>th</sup> Annual Spring Classic to be held March 7<sup>th</sup> through March 12<sup>th</sup>, 2006 at Lake Whitney MX Park will be scored using **Trackside Transponders**. This is the same transponder used at Loretta Lynn's, this event last year nad others. Each racer at this event will be required to wear a transponder. A racer will need only one transponder no matter how many classes they are entering. The transponder is worn around the racer's left ankle outside the boot. Transponders can be purchased online or at the track for \$100. After this event, the transponder can be sold back to Trackside for \$70 or can be kept by the racer and used at future events. Other events requiring the Trackside Transponders in 2006 are:

- AMA Lake Whitney Spring Classic Championships – March – Lake Whitney, TX
- GNC Finals – March – Decatur, TX
- AMA Loretta Lynn Youth Regional (Locations TBA)
- AMA Air Nautiques Amateur National Motocross Championships – August - Hurricane Mills, TN

**Riders are urged to purchase a transponder prior to the event.** The transponder can be purchased on the internet at [www.mxtransponder.com](http://www.mxtransponder.com). Use this site for information about the transponder & to see the proper way to mount transponder. Your cooperation in implementing the transponder scoring system is greatly appreciated.

**Trackside Software** will be at the events to operate the scoring computers. After each moto, lap time printouts will be available to purchase. With initial purchase or with rental, lap times printouts will be provided at no charge. Lap times and results will be posted daily to [www.mxtransponder.com](http://www.mxtransponder.com) so your friends at home may view up-to-date results.
